WELCOME

As a part of Trinity Episcopal Cathedral's mission to minister to the needs of all people, Trinity Learning Center provides a program of education and nurturing care which reaches out to the entire Midlands community. We serve Trinity families, to be sure, but, respecting families' individual cultures and unique dynamics, we also serve those who are not members. In all cases, we promote a child's formation and development and growth in leadership. For some families, the TLC is their first encounter with Trinity Cathedral.

Connections... are the power of being with others, it shapes our brains!
 Connections... are rooted in early childhood health, emotional well-being, and life success!
 Connections... are the steps along the path which give our growing child a history from which to draw upon when facing life's challenges!
 Connections...with others in our young child's life builds a sense of being a significant part of something greater!

"The youngest infant comes to us, not as empty vessels to be filled," according to Piaget, "but as individuals with experience." Individualized care creates the "Connections" needed to nurture each child's self-concept and identity within the group setting and promote their ability to interact with and have empathy for all others.

STAY CONNECTED with us at Trinity Learning Center!
